

NATURAL CREATIONS

LANDSCAPE | DESIGN | INSTALLATION

We are a **proven, trusted** Minnesota landscape design and construction company

Our goal is to create and manage unique, custom, sustainable landscapes. We do this with careful planning, continuous communication, and quality craftsmanship. We recognize the importance of building a lasting relationship with our clients, often resulting in additional projects and referrals.

Design

We will meet with you to discuss your project and start the design and planning process.

Installation

We take pride in surpassing your expectations and goals by providing quality craftsmanship and results.

Maintenance

Our trained, professional crews specialize in horticulture care and property management.

5700 Vagabond Ln, Plymouth, MN 55446

Design

The design process focuses on a collaboration with you and one of our designers to zero in on the vision for your property. This three-step process culminates with a final design that you are confident in and excited about.

1 Consultation

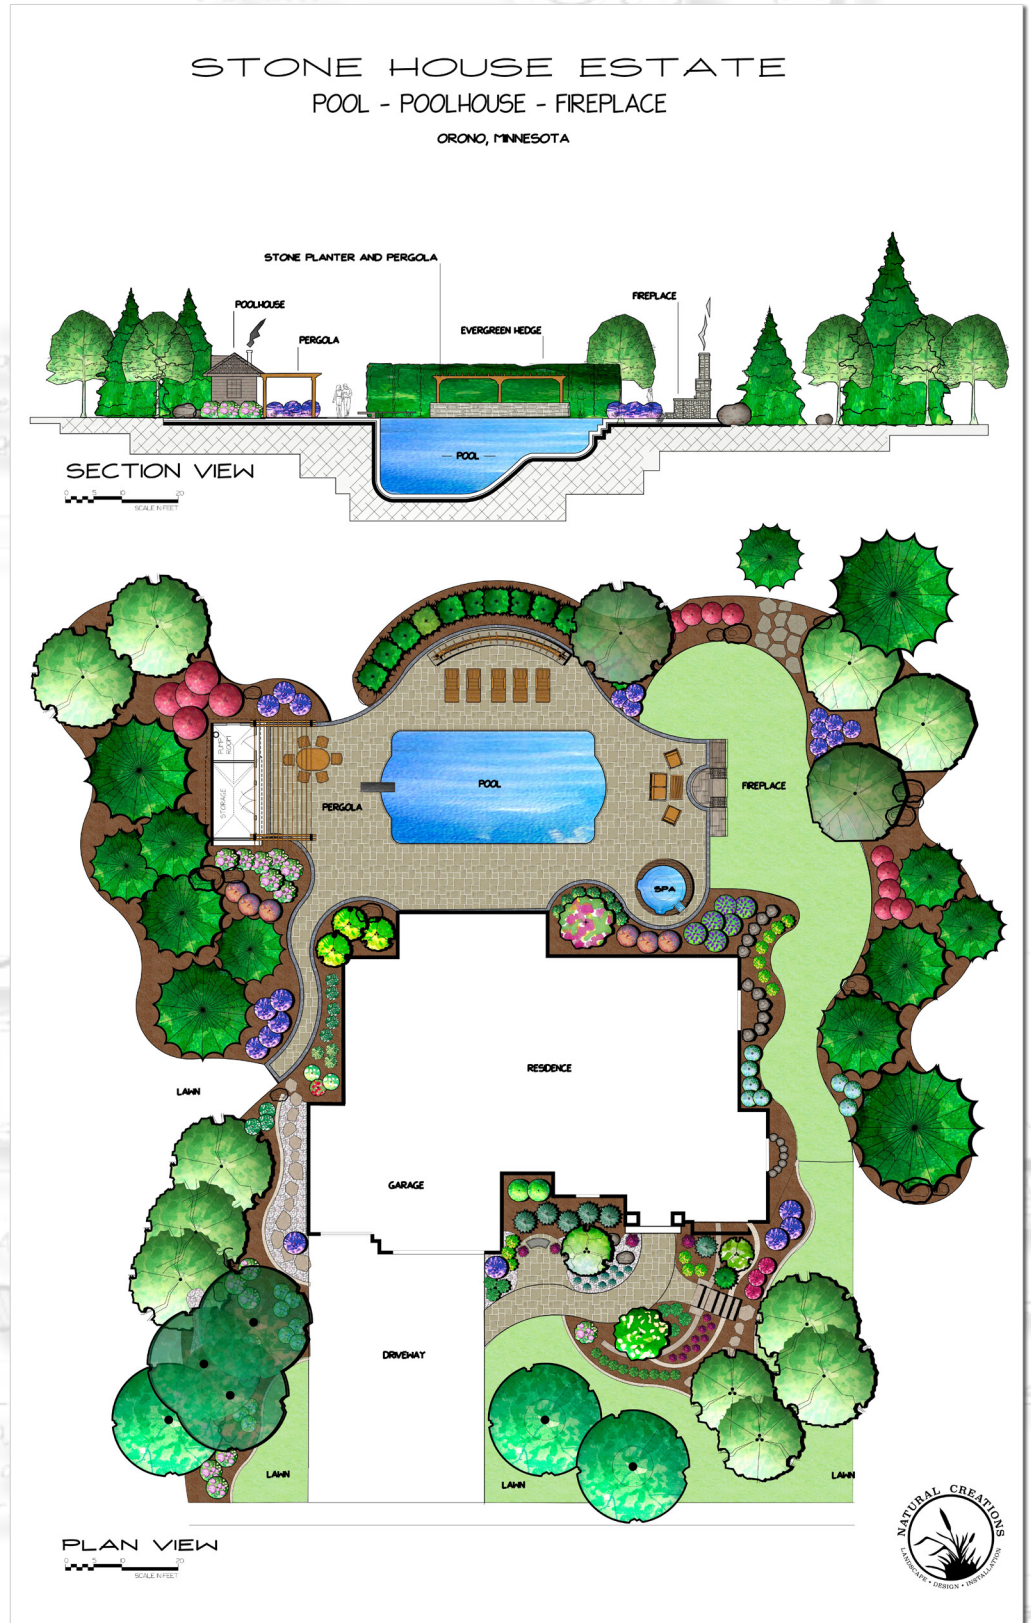

NATURAL CREATIONS will coordinate a time to meet with you at your property to discuss your project. This allows us to see your existing landscape, understand your vision and priorities, and share our creative ideas.

2 Design

We will create a landscape design to address the objectives and priorities shared in the consultation meeting. **NATURAL CREATIONS** is equipped with the knowledge and experience to create a plan that communicates a clear vision and solves functional problems. The design will incorporate quality materials, functional resolutions to site challenges and will allow for easy adjustments with our accessible design staff. Each project is unique, therefore our design fees vary based on the scope of your project. Your designer will be able to estimate the cost of the design during your onsite consultation.

3 Design Presentation

NATURAL CREATIONS will present the created design, review materials selected, lay out an expected timeline for installation completion, and will also discuss post-installation maintenance. This is a collaborative step. We encourage and expect our clients to ask questions and provide feedback so that both parties can move into the landscape installation phase with confidence and excitement.

Installation

NATURAL CREATIONS is equipped with hard working foremen and crew workers. These experienced professionals are driven to exceed your expectations of service and results while installing your new landscape.

NATURAL CREATIONS strives to assist each customer with the highest level of quality service and results. Our goal is to create and manage unique, custom, sustainable landscapes. This is accomplished through the process of careful planning, continuous communication, and quality craftsmanship. NATURAL CREATIONS recognizes and values the importance of building a lasting relationship with its clients, often resulting in additional projects and referrals.
